- Web Analytics Methodology

Work Experience

Freelance Marketing & Analytics Consultant
Aug 2025 – Present

Independent Consultant

- Reviewed website data for SaaS and e-commerce clients to understand visitor behavior and improve user journeys.
- Set up tracking using Google Analytics 4 (GA4) and Google Tag Manager (GTM) to measure page views and link clicks.
- Managed digital marketing campaigns and created weekly performance reports to show improvements in lead generation.

Business Development Manager / Project Manager
Jan 2024 – Jul 2025

AIDONES PVT LTD

- Led client acquisition efforts and developed outreach strategies that increased positive response rates.
- Managed project delivery across design, development, and client teams to ensure on-time setup.
- Tracked campaign performance metrics in dashboards and presented weekly results to stakeholders.
- Built client-facing pitch decks and proposals using data to highlight specific pain points.

Business Development Executive / Project Manager
Feb 2023 – Dec 2023

FINCORD Consultants

- Built and managed client pipeline through targeted B2B outreach and relationship building.
- Introduced simple tracking systems to measure how many clients engaged with our campaigns.
- Managed project timelines and deliverables for consulting engagements.

Marketing Executive
Jul 2022 – Feb 2023

Fincord LLC

- Executed digital marketing campaigns across email, social media, and paid channels.
- Reviewed campaign data to find the best audiences and improve the return on investment.
- Created marketing content and managed regular performance reporting for the team.

Analytics Portfolio

Self-directed projects live at abdurraheem0528.github.io

Notion Page Tracking

Reviewed homepage performance and created a basic measurement plan using GA4 to track important button clicks.

ClickUp Page Tracking

Looked at how visitors navigate the page and designed a straightforward GA4 and GTM tracking setup.

Analytics Examples

Built 3 simple practice setups to demonstrate hands-on understanding of how to track website performance.
